Meta Q3 2022 Integrity and Safety Reports

Our quarterly integrity updates show our progress on protecting people from harm and reducing violating content on our apps. These updates provide details on how the Oversight Board is impacting our policies and processes while making us more transparent. We continually share how we refine our enforcement to allow people to express themselves. In addition to these reports, we share information twice a year on government requests for user data, content restrictions, intellectual property and internet disruptions. This work is ongoing, and we will continue to share these updates each quarter.

Transparency reports

Quarterly

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>We track our progress on enforcing our Community Standards while also measuring how we’re protecting our community.</td>
<td>We aim to provide more transparency and context about what people are seeing on Facebook.</td>
<td>We give our community visibility into our responses to the Oversight Board’s recommendations and the progress of this long-term work.</td>
<td>We report on our threat disruption work to give a more comprehensive view into the risks we tackle.</td>
</tr>
</tbody>
</table>

Half year

<th>Government Requests for User Data</th>
<th>Content Restrictions</th>
<th>Intellectual Property</th>
<th>Internet Disruptions</th>
</tr>
</thead>
<tbody>
<tr>
<td>We report on government requests for user information only where we have a good-faith belief that the law requires us to do so.</td>
<td>We report on the restrictions where content violates local law but doesn’t go against our Community Standards.</td>
<td>We report on the volume and nature of copyright, trademark and counterfeit reports as well as any proactive removals before content was reported to us by a rights holder.</td>
<td>We report on intentional Internet disruptions on connectivity that limit people’s ability to access the internet or specific websites and apps.</td>
</tr>
</tbody>
</table>
Integrity highlights

Improving accuracy
Our integrity efforts are always evolving, and our goal is to reduce the violating content people see while making fewer mistakes. This means ensuring we take action on content that violates our policies while refining accuracy and detecting nuance so that we aren’t taking down things incorrectly, like jokes between friends.

Recent trends

Why prevalence matters
We believe all of the metrics we report on are important when it comes to building the full picture of how we are performing on enforcing our policies. But, when someone wants to answer the question, “How safe is the platform?” we believe prevalence gives the best answer, as it shows the likelihood that someone sees a piece of violating content that we missed.

Prevalence on bullying and harassment

Facebook

0.08%
Prevalence was .08%, or 8 views per 10,000 views

Instagram

0.04%–0.05%
Prevalence was .04%–.05%, or 4–5 views per 10,000 views
